The Vegetable Elixir.
PREPARED BY F. S. BRONSON.

IT is with great pleasure the subscriber informs the public that he has completed the mixture of the VEGETABLE ELIXIR. This medicine is composed of Roots which grow in this State. It is useless to enter into a detail of the value of this medicine, (or any other Root medicine,) as it is well known that ALL ROOTS have valuable Medical properties. He would also state that there is not the least danger in the use of the ELIXIR. For the following named diseases, there is no medicine made or vended at the present time, better calculated to relieve the afflicted, than the VEGETABLE ELIXIR.
For Rheumatism and Consumption, the ELIXIR should be used internally and externally.
For Dyspepsia, Gout, he would also recommend the use of the ELIXIR, as he feels confident it will prove highly beneficial to those who use it.
To those who are afflicted with Pustules, Eruptive Distempers, and Venereal diseases, he particularly recommends the use of the VEGETABLE ELIXIR. Without the fear of contradiction, he recommends this medicine as the best now in use—as it has proved successful in every case in which it has been used.
Orders addressed to the subscriber or Mr. J. R. M'Kain, will be promptly attended to. The ELIXIR may always be had at J. R. M'Kain's Drug Store, Camden, S. C.

POSTPONEMENT of the DRAWING of the Splendid Scheme of the ALEXANDRIA LOTTERY, Class E, (Highest Capital \$75,000) from the 27th of May to the 23d of September next.
From the general embarrassment of the times; the deranged state of the domestic exchanges, and the difficulties attending the disposal of Bank Bills out of their immediate circles of issue, we have been solicited by agents and Venders to postpone the drawing of the above scheme, for a short time, until the present crisis in the affairs of the country shall have passed away.
We have therefore yielded to these solicitations, and postpone the drawing of the Alexandria Lottery, CLASS E, from the 27th of May, to the 23d day of September next, when the drawing will positively take place.
Adventurers having purchased tickets in said class, and who do not wish to hold them until the drawing, can have their money returned by the agent or broker from whom they purchased—or can exchange them for tickets in classes to be drawn at an earlier day, as it may suit their pleasure.
The Managers have consented to this postponement with extreme reluctance, as it has always been their policy to draw every scheme at the time announced. The unparalleled state of the country, is the only cause of this one departure from the usual custom.
All the other schemes now before the public, will be punctually drawn on the days announced.

PROSPECTUS
OF THE
Camden Commercial Courier.
THE Establishment of the COMMERCIAL COURIER was rendered necessary by the inconvenience to which our citizens have been subjected for the want of a public channel of communication which in a commercial community like Camden, is essentially necessary, and consequently the COURIER'S claim on the public is such as should ensure a liberal patronage.
The undersigned have spared no trouble or expense in obtaining the best workmen in order to render the Paper all the advantages that it will admit of, and affording satisfaction to its patrons.
In political matters the Courier will take no part; the design being to publish a Paper adapted to the interest of ALL, which could not be effected by its entering into the arena of Politics—it will be confined principally to such matter as appertains to Commerce, Agriculture and Amusement.
The COURIER is published every Saturday morning at Three Dollars in advance, or Four Dollars if not paid until the expiration of the year.
Persons wishing to become subscribers must address a letter (POST PAID) to

BRONSON'S
VEGETABLE PANACEA.
THE subscriber informs the public, that he has just completed the mixture of this valuable medicine. He takes pleasure in stating that he has made use of this PANACEA, successfully in a case of Scrofula, which he has been afflicted with more than THREE years. On several occasions he applied to practical Physicians for aid, (both north and South), and received no benefit. He was, at length, prevailed upon by numerous acquaintances, to try the virtue of certain ROOTS and HERBS; and believing, that the Receipt would greatly benefit him, he took it, together with an old French Receipt: from which is manufactured the VEGETABLE PANACEA.
It is proper here to say, that the quality of some, or ALL the principal Roots, are well known to the Medical Faculty, by whom they are frequently used. For Scrofula or King's Evil, Ulcerated Sores, general diseases of the BLOOD, or the effects of Mercury; it has a decided salutary effect.
For BOWEL COMPLAINT he would also recommend the use of the VEGETABLE PANACEA. Children are frequently attacked with this complaint: especially when teething. A few doses of the PANACEA will check the Bowels, and they become regular again. It has been tried by a great number of respectable individuals, and pronounced a "certain cure." He has tried it at different times in his own family, and it relieved the child immediately.
This Medicine is simple in its operations; and has a pleasant taste.
Give it a trial, and judge its worth.
The subscriber will keep a constant supply of the PANACEA at the different Drug Stores throughout the United States. Orders addressed to the subscriber, or to James R. M'Kain, will be promptly attended to. The PANACEA may always be had at J. R. M'Kain's Drug Store, Camden, S. C.
PRICE ONE DOLLAR per bottle.

THE enclosed business of the subscriber, is put in the hands of William Anderson, Esq., who is duly authorized to settle the same.
Circumstances render it necessary that payments should be promptly made, and it is hoped, that all will avail themselves of this notice, or it may be too late. July 29 13 1/2 P. M'CAKILL.

NOTICE. The Commissioners of Roads for Kershaw District, are hereby notified that a regular meeting will be held in Camden, on the second Monday in August, at which time, each commissioner is required to make a return of all persons liable to do road duty in his division.

THE success of the SOUTHERN TONIC is unprecedented. It has been anxiously sought after by all persons in every part of the United States, and its widely extended distribution has been owing to the many requests received from every section of the South and South West. Although it originated in an obscure part of the country but a few years since, it is now found in all the principal towns and villages in the Union, and its virtues as a cure for Ague and Fever, and as a general Tonic, are appreciated by all who have used it. Being as it professes a compound of Southern Vegetables, it is needless to offer the assurance that there is no Arsenic, Mercury, nor any thing in the least hurtful to the human constitution in it. It will be found a valuable Medicine in all cases of Dyspepsia and indigestion of Stomach and Bowels and patients convalescing from Bilious Fever, will derive the most important benefits from the use of the Southern Tonic. It may be administered to children and infants of the most tender age with the utmost safety. Prepared by Coster and Cox at their Laboratory, at Montgomery Alabama: For sale by their appointed agent, JAMES R. M'KAIN.

COTTON SAW GINS.—The subscriber continues to manufacture the above article on the most approved plan. Old Gins carefully repaired &c. &c. Early applications best suit the interest of the planter and manufacturer.
July 23, 12 1/2 JOHN WORKMAN.

JONES' PATENT COTTON GIN.
THIS Gin can be made double, or single. If made double, they reduce labor, and gin just double, the quantity of cotton over the single cylinder Gin, no other kind having been in use previous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether small or large, one hand will be sufficient to attend them. The Gins have mechanical feeders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hawking operation it receives from the feeders, which make two revolutions to one of the saws, it is almost in a half gined state, before it descends to the saw. By a very simple arrangement of a screw to each set of gaates, on which the hoppers rest, and through which the teeth of the feeders pass, they can be made to feed slow or fast to suit the condition of the cotton at the time. When made double, the saws are placed on two sets of cylinders and turn upon each other in opposite directions, and are cleaned by two sets of brushes that have four revolutions to one of two saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feeders, &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. It may also be propelled by iron running gear. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large number of planters, merchants and others, and received their general approbation.
Several gentlemen have been so kind as to give the Patentee their written opinion respecting the merits of the Gin. A number of others could be added, but the following are deemed sufficient:
From his Excellency Gov. White of Louisiana.
New Orleans, Feb. 27, 1837.
Dr. A. Jones—Sir, In reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Saturday the 25th inst. and was very much pleased with its performance. The mere fact of its self-feeding, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the process, appeared to me to be better and cleaner than from the common Gins in use, and that it saves considerably in labor. Respectfully, &c.
E. D. WHITE.
From Mr. J. Compton, a wealthy planter, resident in the Parish of Rapide, Louisiana.
Dr. Jones—Dear Sir, I have examined your Patent Cotton Gin, with feeders, &c. And have seen it in operation, and approve of it so highly, that I have taken the liberty of ordering one for my plantation in time for the next crop.
Yours respectfully,
J. COMPTON.
New Orleans, Feb. 28, 1837.
From Mr. A. Longer, an experienced and eminent Cotton Broker of New Orleans.
New Orleans, Feb. 28, 1837.
Dr. Jones—Dear Sir, In answer to your note of this morning, I will state, that I have carefully examined your new Patent Cotton Gin, and have found it far superior to those generally used in this

State it cleans the cotton much better, and gives it a much better appearance. I hope, for the good of the country, it may become duly appreciated.
Yours sincerely,
A. LONGER.
From Messrs. Forestall, High & Co. Commission Merchants.
Dr. A. Jones—Dear Sir, we have examined the sample of cotton left with us, cleansed by your Patent Cotton Gin, and also the cotton in its uncleaned state, and pronounce the same greatly superior to the average samples which have come under our observation this or preceding seasons.
Very respectfully, your ob't servants,
FORESTALL, HIGH & Co.
New Orleans, March 1, 1837.
From Col. Harris Smith Evans, a planter of Wilcox county; signed also by Dr. David J. Means, a planter of Green county, and Mr. Wm. C. Clifton, a planter of Dallas county, all of Ala.
Dr. Jones—Dear Sir, In reply to your enquiry concerning your inquiry concerning your new Patent Cotton Gin, we deem it no less a pleasure than a duty to say to you, emphatically, that we consider it a most decided and valuable improvement. We have examined it carefully and seen it in successful operation, and we feel no hesitancy in recommending it to the attention of planters generally. Most respectfully yours, &c.
HARRIS SMITH EVANS,
DAVID J. MEANS,
WM. C. CLIFTON.
New Orleans, March 7, 1837.
P. S.—As a further testimony of my confidence in the success of your Gin, you will please order two Double Gins of 80 saws in a stand each, for my plantation, and oblige yours truly,
H. S. EVANS.
As a further proof of my confidence in your Gin, you will please order me a Double Gin, of the same size, for my plantation, and oblige yours respectfully,
D. J. MEANS.
Mr. Clifton also stated, that if he had not just before bought two new Common Gins, that he would likewise have ordered one or two of the Patent Gins for his plantation.
From Mr. H. F. McKenna, of the house of Brander, McKenna & Wright, of New Orleans.
Dr. A. Jones—Dear Sir, in reply to your note, accompanied by a specimen of the cotton, ginned by your Patent Gin, I beg leave to observe, that it exhibits a decided improvement on the usual process of ginning; delivering the staple unimpaired and free from nap or trash, clean and of good color; thereby giving the article an additional value. These favorable impressions of the advantages of your Patent Gin, have been confirmed by subsequently witnessing it in operation. The utility of the double cylinders and saving of labor, will be readily perceived and properly appreciated by the intelligent planter.
Feeling a deep interest in the success of all improvements tending to benefit the important staples of our country, I trust that yours will meet with the encouragement it justly merits.
Very respectfully, your ob't serv't.
H. F. M'KENNA.
New Orleans, March 6, 1837.
From Mr. G. Senior, a Machinist of New Orleans.
Dr. A. Jones—Dear Sir, in answer to your enquiry of my opinion of your Patent Cotton Gin, I beg leave to state, that I was fifteen years engaged in the cotton factories of Manchester, England, and during four years of that time, I was foreman in the house of Messrs. Lewis, Williams & Co., and near five years spinner in the house of Messrs. Sandford & Greene. I have seen your Cotton Gin in operation, and have examined the cotton ginned by it, and pronounce it better cleaned, and the staple less injured, than any cotton that ever came under my observation. It is completely ready for the breaker without the aid of the blower, and would, therefore, save the first process in manufacturing the article. I consider cotton cleaned by your Gin, would command from one to two cents on the pound more than the average crops brought into the Manchester market, and cleaned by common Gins. Yours, very resply.
N. Orleans, March 9, GEORGE SENIOR.
Dr. Jones—Dear Sir, in answer to your enquiry respecting my opinion of your Patent Cotton Gin, I have to state, that I have been engaged in putting up the Carver Gins for planters on Red River, and that I have seen your Gin in operation, and have examined the quality of the cotton produced by it; I consider it equal if not superior to the Carver Gins: in addition to which, I think your feeders a decided improvement, and by the aid of which, the quality of the cotton cleansed appears much improved, over that produced by the common Gins. Yours &c. S. BENNETT.
New Orleans, March 10, 1837.
In addition to the above, the Patentee will refer planters to the following gentlemen, who have either seen the Gin in operation, or have examined samples cleansed by it: Messrs. N. & J. Dick, Thomas Barrett & Co., Hagan, Niven & Co., Lambeth & Thompson, Martin, Pleasants & Co., Hermann, Briggs & Co., Wm. L. Flower; Bullitt, Ship & Co.
